Field Trip Health Form

The Commonwealth of Massachusetts requires that all students who need prescription and non-prescription medication during school hours or during school functions (Field Trips) on a daily or as needed basis must do the following:

1. Present a written medication order signed by the physician.
2. Present a written consent signed by the parent or legal guardian.
3. Bring the medication in the original prescription bottle (Note: the pharmacy will provide a second bottle for school if you ask), labeled by a registered pharmacist as required by law.
4. Parents must supply all non-prescription medication in the ORIGINAL container. These medications must have a written physician's order.
5. All medications must be brought to the Health Office in an advance (2-3 days prior to field trip date) by an adult.

Please understand that preparing for such a trip involves time, effort and thought to ensure that your child(ren) remain safe and that the health and medication needs are met and medications are safely administered.

If you have any questions, concerns or updates regarding your child, please feel free to contact the health office. Thank you for your attention and cooperation.

Sincerely,

Health Office
